HEATING AT THE CAFÉ IN THE PARK

Members were advised, for information, that since the flood in the café last year, there has been no heating in the café. Some of the wall electric heaters had already broken and some were damaged in the flood.

Various replacement options have been explored. Stockton Borough Council (SBC) attended the site and advised the best option would be to upgrade the current boiler in the Community Kitchen and run pipework through to the café and install new radiators. This would be at a cost of approximately £8500 plus a design fee of 15%.

At the Finance & General Purposes meeting in October, members agreed that the Town Council should contact SBC and request that, as they are the landlord, they pay for the new heating installation. At the time of this agenda, no reply has been received.
